PROFILE

I am an undergraduate student in Computer Science and Engineering at RUET, with a strong passion for Machine Learning and emerging technologies. I enjoy solving real-world problems and aspire to contribute to future innovations through research and development.

My academic and personal interests include Machine Learning, Deep Learning, Computer Vision, Natural Language Processing, Web Development, Cryptography, and Reverse Engineering. I have hands-on experience in programming with Python, C/C++, and JavaScript, and enjoy working on both individual and collaborative projects.

With strong time management skills and a collaborative mindset, I am always seeking opportunities to learn, build, and grow while contributing meaningfully to impactful projects.
